*A safe, creative and fun year round program that meets once a week for children 6 months-8 years old. Our program develops gross motor skills, spatial and directional awareness, self-confidence, color & shape recognition, patience, communication, and making friends!

*An educational approach to gymnastics and fitness by using themes and props. A child practices different skills at stations in obstacle courses that are centered on weekly themes. Our clean, brightly colored gym is decorated to coincide with the theme.

*We use real gymnastics equipment scaled down for pre-schoolers: balance beams, bars, trapezoid vault, inclines, tumble trak, tunnels, parachute, mini-trampoline, ladders, octagons, rings, trapeze, zip line, and fitness equipment.

Tumbleweeds is very excited about our Art Program. Scribbles is an Art program designed for young artists. The program teaches young artists a variety of styles including painting, collage, mosaics, sculpture and much more. Children's books and music will be used to help inspire your child's imagination as they create treasures that last a lifetime. This unique approach to the world of art instills a love of learning in a fun and creative atmosphere. Children will have a blast making their creative keepsakes and best of all, the mess is on us!
